BODY WRAP is an express slimming programme and a personalized treatment which allows obtaining in a short-time and with no efforts or side effects the desired body shape by reducing the excess centimeters and improving the cellulite conditions.

I dqqqq have been informed about the following details of the treatment:

- **Detoxification and Water Retention:**Body wraps featuring detoxifying algae, caffeine, Dead sea salt and other ingredients that can help rid the body of toxins through metabolic skin cell stimulation. As your largest organ, detoxification of the epidermis can have a significant effect on your health and overall well-being.
- **Temporary inch and/or weight loss:** Wraps with detoxifying ingredients teamed with firmly wound bandages will see you sweat out any excess water and toxins, and also tighten your skin. This can temporarily improve the contours of your body and see you lose a dress size or two.
- **Dead skin removal:** Wrap treatments comprising an exfoliation stage will see dead skin cells lifted, providing you a smoother complexion top-to-toe and a flattering glow.
- **Intensive moisturisation:** The vast majority of wraps comprise moisturising ingredients to hydrate, nourish and smooth your skin for improved condition.
- **Relaxation:** Once you're fully wrapped by your Therapist, you'll be left to relax for up to 30 minutes.
- Enveloped by a pleasant and comfortable body wrap, the skin progressively absorbs the main active ingredients contained in the products and in just 30 minutes the results are visible: more compact and nourished skin but especially an effective reduction of excess centimeters after the first treatment.
- 8 sessions is the ideal number of treatments in order to maximize the benefits and improve skin imperfections. It is recommended to repeat the treatment every 2 months for long-lasting results

I am fully aware that the decision to proceed with the body wrap treatment is based solely on my expressed desire to do so. I understand the procedure, risk, benefits and alternatives. I am allowing the therapist/doctor Doctor-9 test of Clinic to do the treatment for me.
