Patient Name	:	Alston Rebello			Emirates ID	:	784-1991-2906159-3	
File No	:	17	DOB	:	1996-06-20	Nationality	:	Indian
Gender	:	Male	Doctor's Name	:	Alan Alfred	Date	:	2025-02-21

DOPPLER OF BILATERAL CAROTID ARTERIES

The visualised extent of bilateral common carotid arteries, internal carotid arteries and external carotid arteries show normal wall thickness with no detectable intimal thickening or calcifications.

The colour flow and the Doppler parameters are within normal limits.

NO significant stenosis or occlusion.

The vertebral arteries also show normal flow and Doppler parameters.

Adjacent soft tissue structures are unremarkable.

IMPRESSION:

Unremarkable bilateral carotid Doppler study.

Recommended clinical correlation
